- Instant alarm and error notifications via SMS and e-mail
- Instant monitoring of elevator error codes and alarm status via ARKEL Cloud
- Easy connection using only four cables
- Programmable five inputs and two relay outputs
- Getting directions to the building with lift failure on mobile devices

ARKEL CLOUD
WORKING PRINCIPLES

- The data received from ARCODE and ARCUBE are transferred to ARKEL Cloud through ARKEL ARLIFT and ARKEL ARLINE. In this way, the data in the ARKEL Cloud can be live monitored by authorized persons using any device with internet access.

- Any failure in the elevator system is notified to authorized users via SMS or e-mail.

- You can get detailed statistical data and follow up the annual maintenance periods.

Frequently Asked Questions

How can I download the ARKEL Cloud access software?

There is no special software to access ARKEL Cloud, no installation is required. Since all ARKEL Cloud functions are web-based, you can access it via any compatible internet browser (Chrome, Internet Explorer, Edge, Firefox, etc.) and enjoy all its benefits.

Can I access ARKEL Cloud on mobile devices?

Yes. You can access ARKEL Cloud from all devices (smartphones, tablets, desktop computers) through supported internet browsers.

How can I register for ARKEL Cloud?

To access ARKEL Cloud, you must purchase a compatible device.

If your company will use ARKEL Cloud for the first time, you must register your company. You will then be assigned an administrator and password. Call ARKEL Technical Support Department to register your company. After confirming your company information (company name, address, contacts) and the serial number on the label on your ARKEL Cloud compatible device, our colleague will send your user name and password to your email address.

Each company must do this only one time. Once your company is registered, you can register all other ARKEL Cloud compatible devices by yourself using the serial number for each device. You will also be able to easily create and authorize user accounts through ARKEL Cloud for other users in your company or for your customers.
